Name of Work:	Khagaria I&D and STP Project	
NIT.No:	BUIDCo/Yo-998/19-172, Dated-01.09.2020	
S.No	Query	BUIDCo Reply
Name of Bidder : A.R Enterprises		
1	How design of STP without having data of characteristics of inflow sewage can be done?	Already mentioned in Bid Document
2	Requirement of Treated water quality as mentioned in clause 2.4 are different as mentioned in clause 13.1.11. under the heading "Design Responsibilities" in the bid document of STP, Khagaria. Clarification needed in this context.	Parameter are same. Bid condition shall prevail
3	Manual on Sewerage and Sewage Treatment as published by the Central Public Health Engineering Organization (CPHEEO) of the Ministry of Urban Development, Government of India and Bureau of Indian Standard listed in the Schedule10 of bid document of STP Khagaria under the Heading "STP" are not related with the "Constructed Wetland Technology" based Sewage Treatment Plant. For design & O/M of Constructed Wetland Technology based STP reference of BIS Code/Manual/Journal/Research papers are needed.	Bid condition shall prevail
4	Clause 1.4 (a) (2) of bid document of Khagaria reads as follows:- " The bidder or his nominated sub-contractor has successfully commissioned at least one Sewage Treatment Plant with technology proposed for this contract operating successfully for a period of 1 year during the last 7 year preceding the month of publication of NIT." Our JV partner SN Envirotech has experience of work for DBSSMLD capacity STP on SBR Technology and KM of I & D. Constructed Wet Technology is most simplest type of STP. Hence above-mentioned clause/ condition for sub-contractor should be waived/relaxed/exempted.	Bid condition shall prevail
5	Price Variation is not applicable for these Contracts, As the Contract Period is 1 Year (Construction) + 15 Years (O&M), So we request you to kindly make Price Variation applicable for these Projects.	Bid condition shall prevail
